

**Senior Lecturer / Lecturer with Tenure Track for Sport Science with focus on
“People in Digital Transformation” (80-100%)**

As of 1st April 2022 (or by arrangement). Representing sport science focused on digitalized teaching and learning, undertaking research, coordinating related projects across departments and potential cross-institute collaborations in the area of “people in digital transformation”.

Tasks

- Research projects on sport and digitalization (e.g., digitalized learning in sport and movement, possibilities and consequences of digital transformation in sport, movement behaviour and body awareness)
- Coordination and support of digitalization-related research and teaching activities and projects
- Teach courses and supervise BSc and MSc theses related teaching and learning in the context of digital transformation
- Support for the profile “Teaching and Learning” (Master programme Sport Science)
- Contribute to academic administration

Job Specification

- A university degree, preferably in sport science
- An aptitude for teaching at Bachelor and Master level and teaching experience in courses, preferably on digitalization of teaching and learning in sport
- Sound specialist knowledge (including research and publication activities)
- Very good language skills in German and English (Teaching in German is expected upon completion of the first two years of employment.)
- Knowledge and experience in practice and training in sport as well as in academic administration are considered an asset
- A doctoral degree is a prerequisite, further research experience desired

Conditions and Remuneration

- Possibilities for individual research and teaching development
- Cooperation opportunities at the Institute of Sport Science, and within the Faculty of Human Sciences, in particular within the Department of Sports Pedagogy
- Good working environment with a motivated team
- Position in accordance with cantonal regulations

In case of an appointment as lecturer with tenure track the position is limited to three years with perspective to a permanent position in case of fulfilment of the qualification criteria. In the interests of equal opportunities, the University of Bern aims to increase the proportion of women in research and teaching and therefore strongly encourages applications from qualified women. The University of Bern offers flexible working time models and family/partnership arrangements. These include childcare facilities,

assistance for partners and the possibility of job sharing
(www.vereinbarkeit.unibe.ch).

Please send applications to the Director of the Institute of Sport Science, Prof. Dr. Siegfried Nagel, including curriculum vitae with academic background, list of publications, and list of academic teaching activities, by 31st January 2022
(siegfried.nagel@ispw.unibe.ch; 0041 31 6315153).
